

Troy School District

Attendance Area Review
Community Feedback

Phases

Phase 1: Discovery - The committee was formed. Research, analysis, and planning commence. The committee develops potential recommendations.

Phase 2: Recommendation (January) - The committee provides the board of education with a recommendation (options). The board determines if the district should move forward with the work.

Phase 3: Feedback (March - April) - TSD will hold four listening sessions for all families, one at each middle school, to obtain feedback from our community. We will also send out a community survey for additional feedback.

Phase 4: Determination (May) - TSD will provide the Board with a summary of feedback, and they will determine any future changes.

AARC Community Meetings

5 Community Meetings

One meeting at each MS, 2 at Larson due to Spring Break

Feedback

- Preferred time to split students, if needed - ES to MS or MS to HS
- Consider moving HS boundaries
- Can we reduce the splits at MS any other way?
- Can the district manage Somerset Apartments another way, instead of having them attend 6 schools?
- How long will the district provide legacy for a family? Would we consider ES students?
- Consider other options
- Consider Mental Health and Social/Emotional impact on MS to HS split caused by Option C
- Could we offer Open Enrollment for Larson, Smith, etc?

One of the ways that TSD can limit the number of changes needed would be to offer more Schools of Choice spots for out-of-district students. Do you support increasing our Schools of Choice numbers?

AARC Adult Survey

In the future, the school district may need to consider increasing the number of Schools of Choice students accepted or closing a middle school. What are your preferences?

1,777 responses

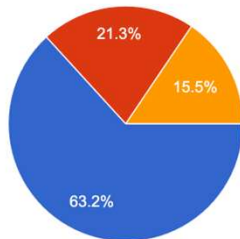

- I would rather TSD increase the number of Schools of Choice students we enroll and maintain four middle schools.
- I would rather TSD not increase schools of choice and consider consolidating middle schools from four to three middle school buildings.

Assumptions

Timeline

2025/2026 – Prepare for Adjustments

2026/2027 - Changes Implemented

MS Legacy

If your student is currently enrolled in 5th, 6th, 7th or 8th grade they will not be impacted (class of 2032, 2031, 2030, 2029). These students will have the option to continue in the building they are in the Fall of 2025.

Option to Move

If a current 5th or 6th grader is slotted to attend a new school, they can do so in the 2025/2026 school year, ahead of the proposed changes.

Curriculum

The curriculum offered at all four middle schools is consistent across the district. Athletics are also uniform.

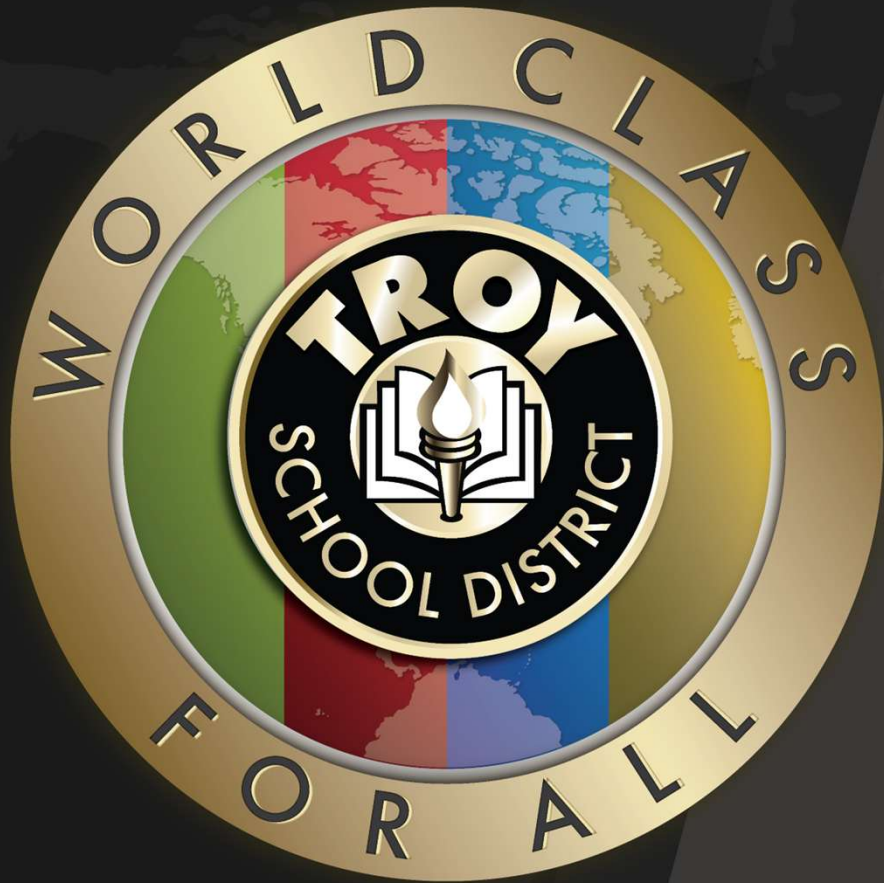

Siblings

TSD will ensure that families with multiple MS students enrolled at the same time will have the option to stay together (siblings will be able to attend the same MS).

Advanced Programming

Students will continue to have access to advanced programming.
