Balanced Assessment System to Promote Learning

NO SINGLE ASSESSMENT can meet all of the
students needs

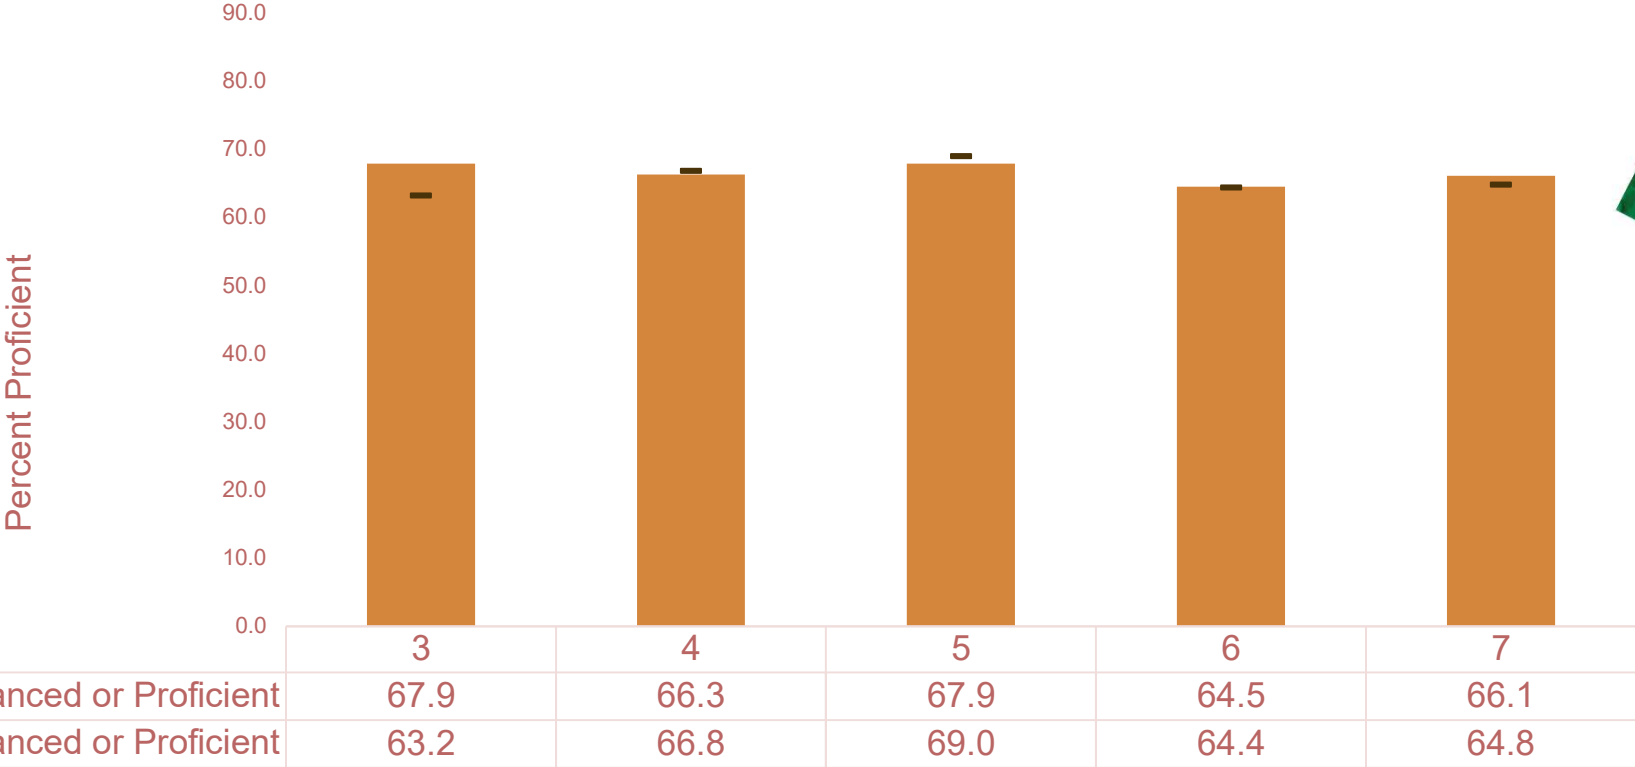

- State assessments are summative assessments designed to be a snapshot in time of student performance.
- State assessments are one part of a balanced assessment system that uses multiple and varied assessments to provide all users with information they need to support teaching & learning.
- State assessments help policy makers and decision makers understand overall levels of achievement & identify schools/groups/students for support.
- State assessments are not designed to be diagnostic or drive day-to-day teaching & learning.

Gap Analysis

ELA & Math

Implications & Actions

- Historically, districts have struggled to raise the performance of **Students with Disabilities, Economically Disadvantaged Students, and English Learners** on par with countywide/statewide rates of performance. This is commonly known as the Performance Gap.
- Some refer to the **Performance Gap**, as an **Opportunity Gap**, wherein certain student groups have not been afforded adequate opportunities & support to perform on par with statewide/countywide peers.

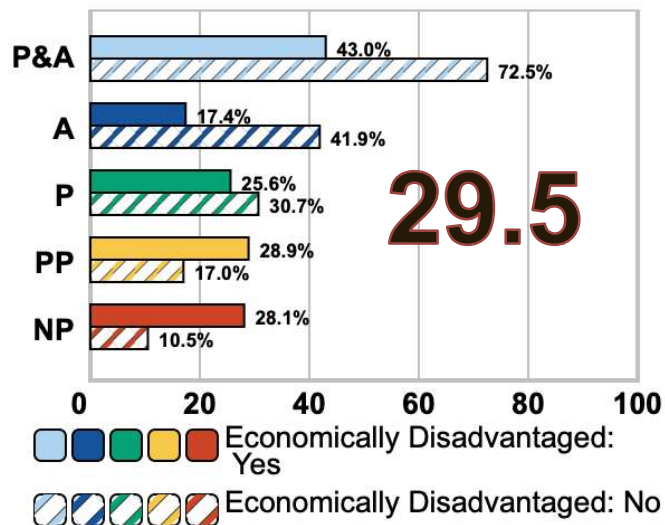

Multi-Tiered System of Support

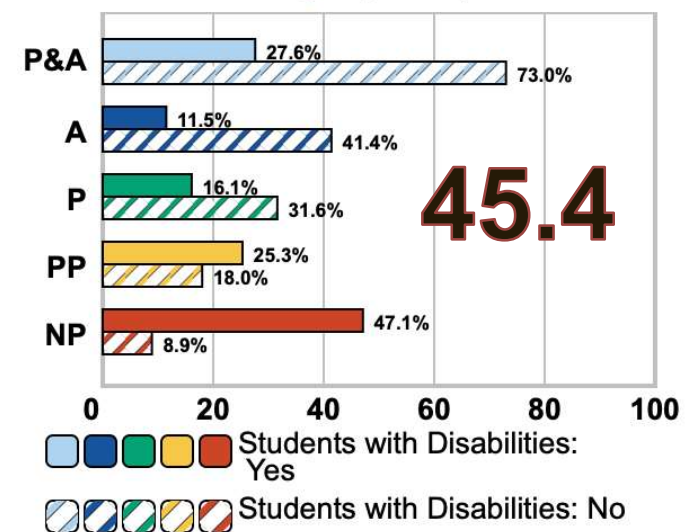

- District commitment to building coherence in process
 - Focus on systems that support all students
 - Commitment to Professional Learning Communities in process at all schools
 - Universal Supports
 - Review progress monitoring of any student on a plan
 - Development of a district handbook
 - Interventions taught by content strong teachers
 - Focus on Tier 1 instruction

Performance Gaps 2025 – Special Education

Performance Gaps 2025 – Economically Disadvantaged

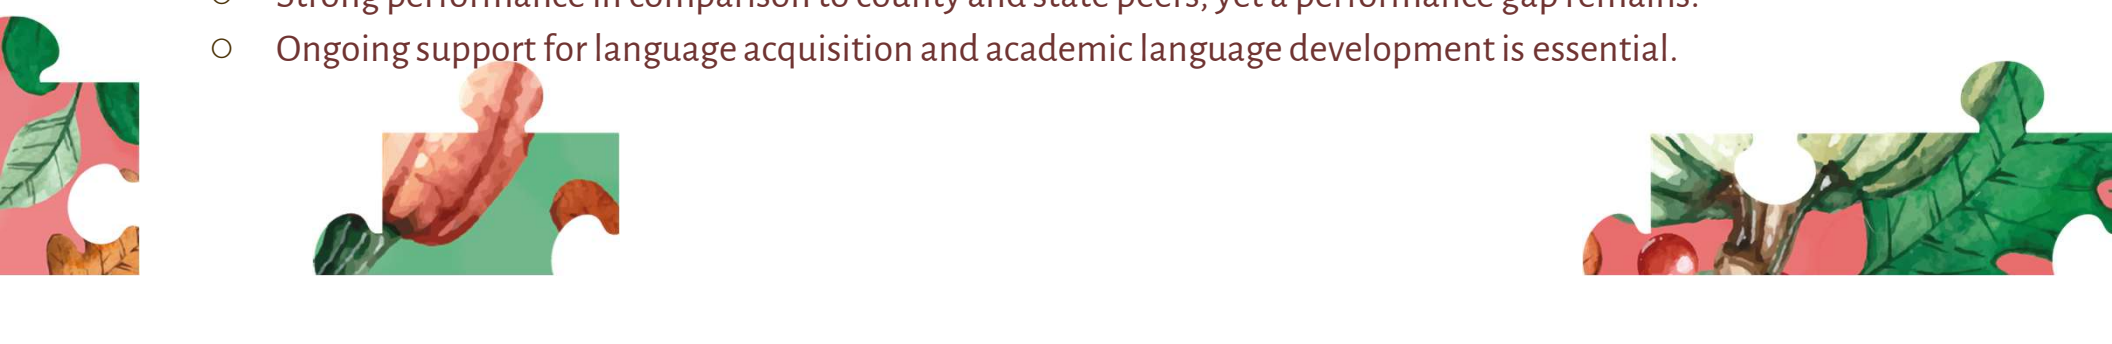

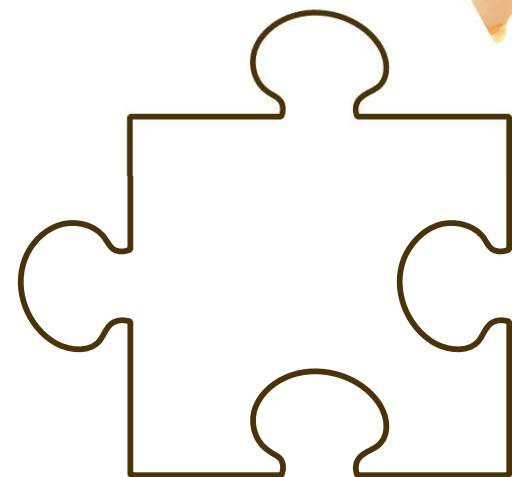

Analysis

Strengths to Build On

- TSD consistently outperforms county and state averages, demonstrating **strong and effective instructional practices**.
- All Subgroups (ED, Sp.Ed, EL) are performing above their statewide peers, indicating **effective support systems**.
- **Performance stability over three years** underscores the **resilience and sustainability** of current practices.
- Third Grade first in the county in ELA and Math.

Focus Areas for Continuous Improvement

- **Special Education**
 - Represents the largest and most persistent achievement gap.
 - Continued focus on inclusive practices with a focus on tier 1 instruction
 - Targeted interventions provided by content strong teachers
 - **Economically Disadvantaged Students**
 - While outperforming state and county peers, fewer than half meet proficiency.
 - Remains a critical area for support and targeted strategies/interventions.
 - **English Learners**
 - Strong performance in comparison to county and state peers, yet a performance gap remains.
 - Ongoing support for language acquisition and academic language development is essential.
-

What is the Seal of Biliteracy?

- Recognizes students who have achieved proficiency in English and at least one additional language.
- Highlights strong communication skills, cultural awareness, and academic achievement.

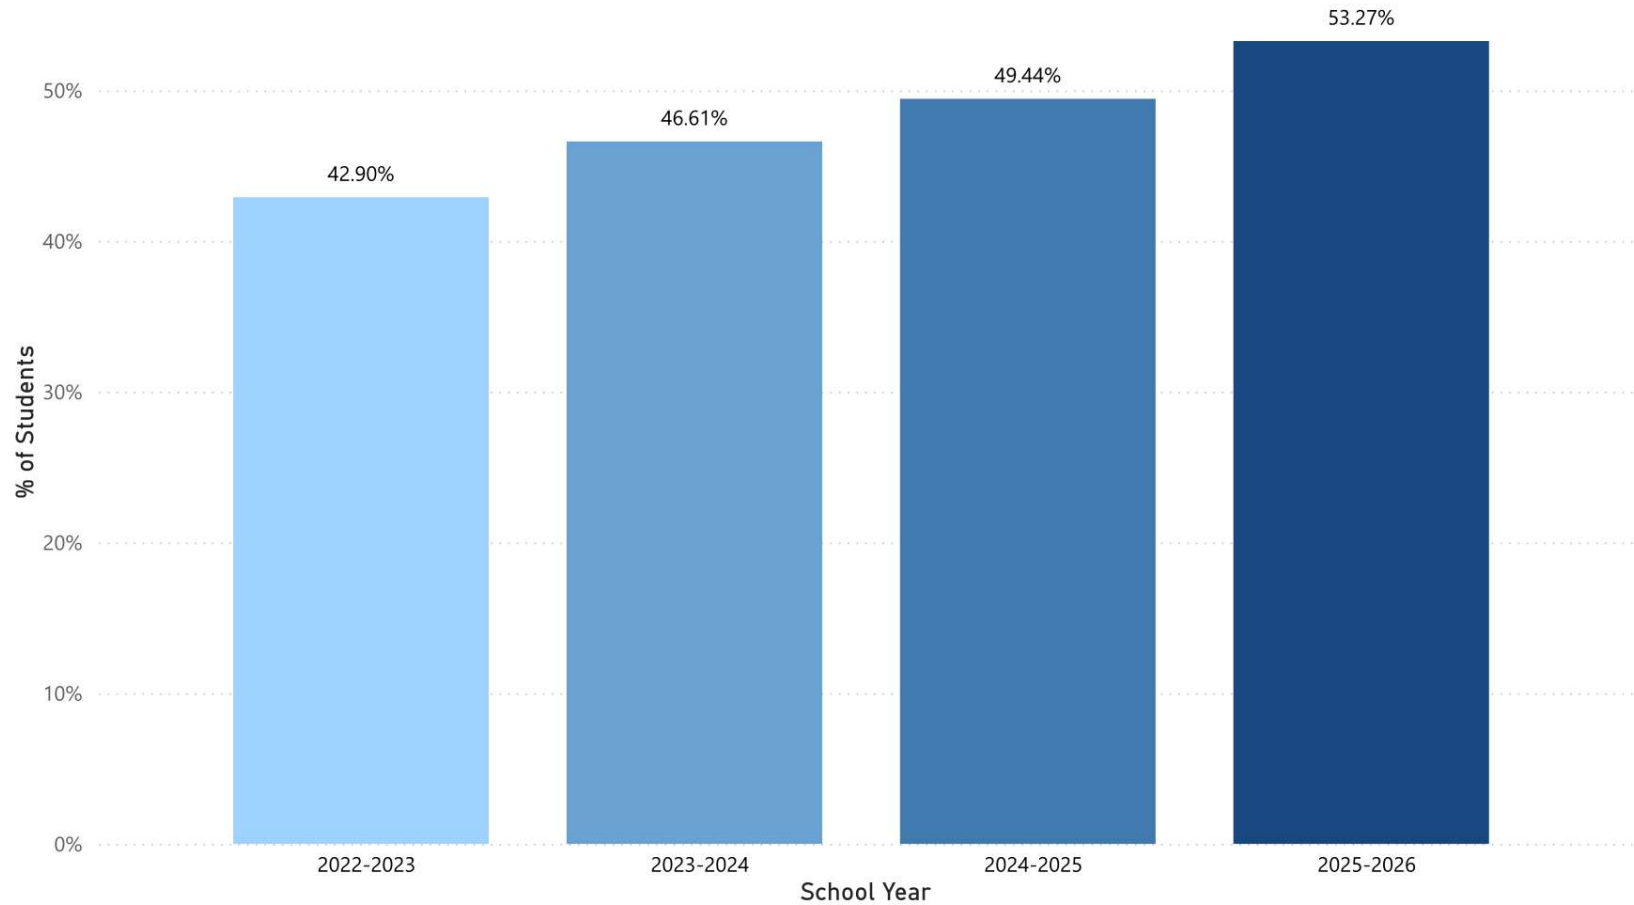

Why it Matters:

- Gives students a competitive edge for college admissions and scholarships.
- Supports career readiness by validating bilingual skills valued in the global workforce.
- Honors and celebrates the linguistic and cultural diversity of our students.
- Encourages continued language learning and cultural competence.

International Baccalaureate Diploma Acquisition

The background of the slide is decorated with several interlocking puzzle pieces. These pieces feature various autumn-themed illustrations, including green leaves, brown and orange leaves, red berries, and a tree trunk. The pieces are scattered around the central text, creating a festive and naturalistic border.
