Pupil Enrollment Projection Study

Troy School District

Table of Contents

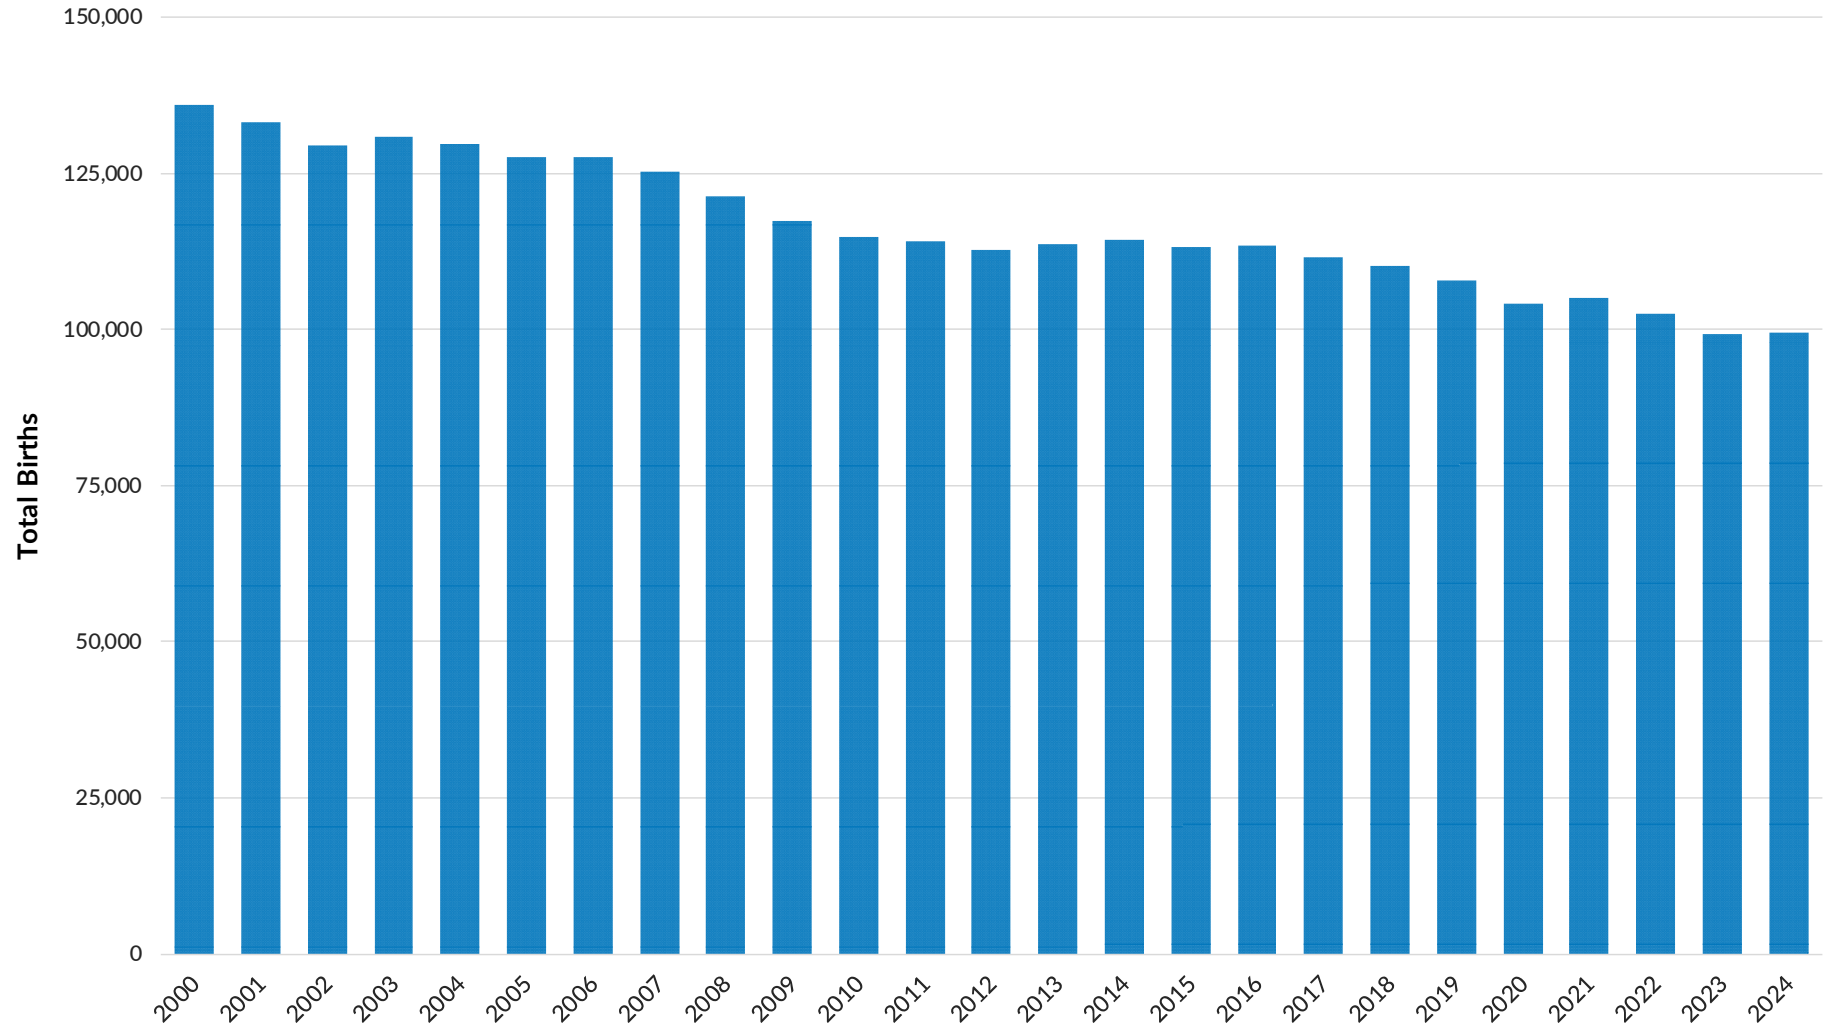

SECTION 1	Demographics
SECTION 2	Pupil Enrollment Projections - Districtwide

SECTION 1

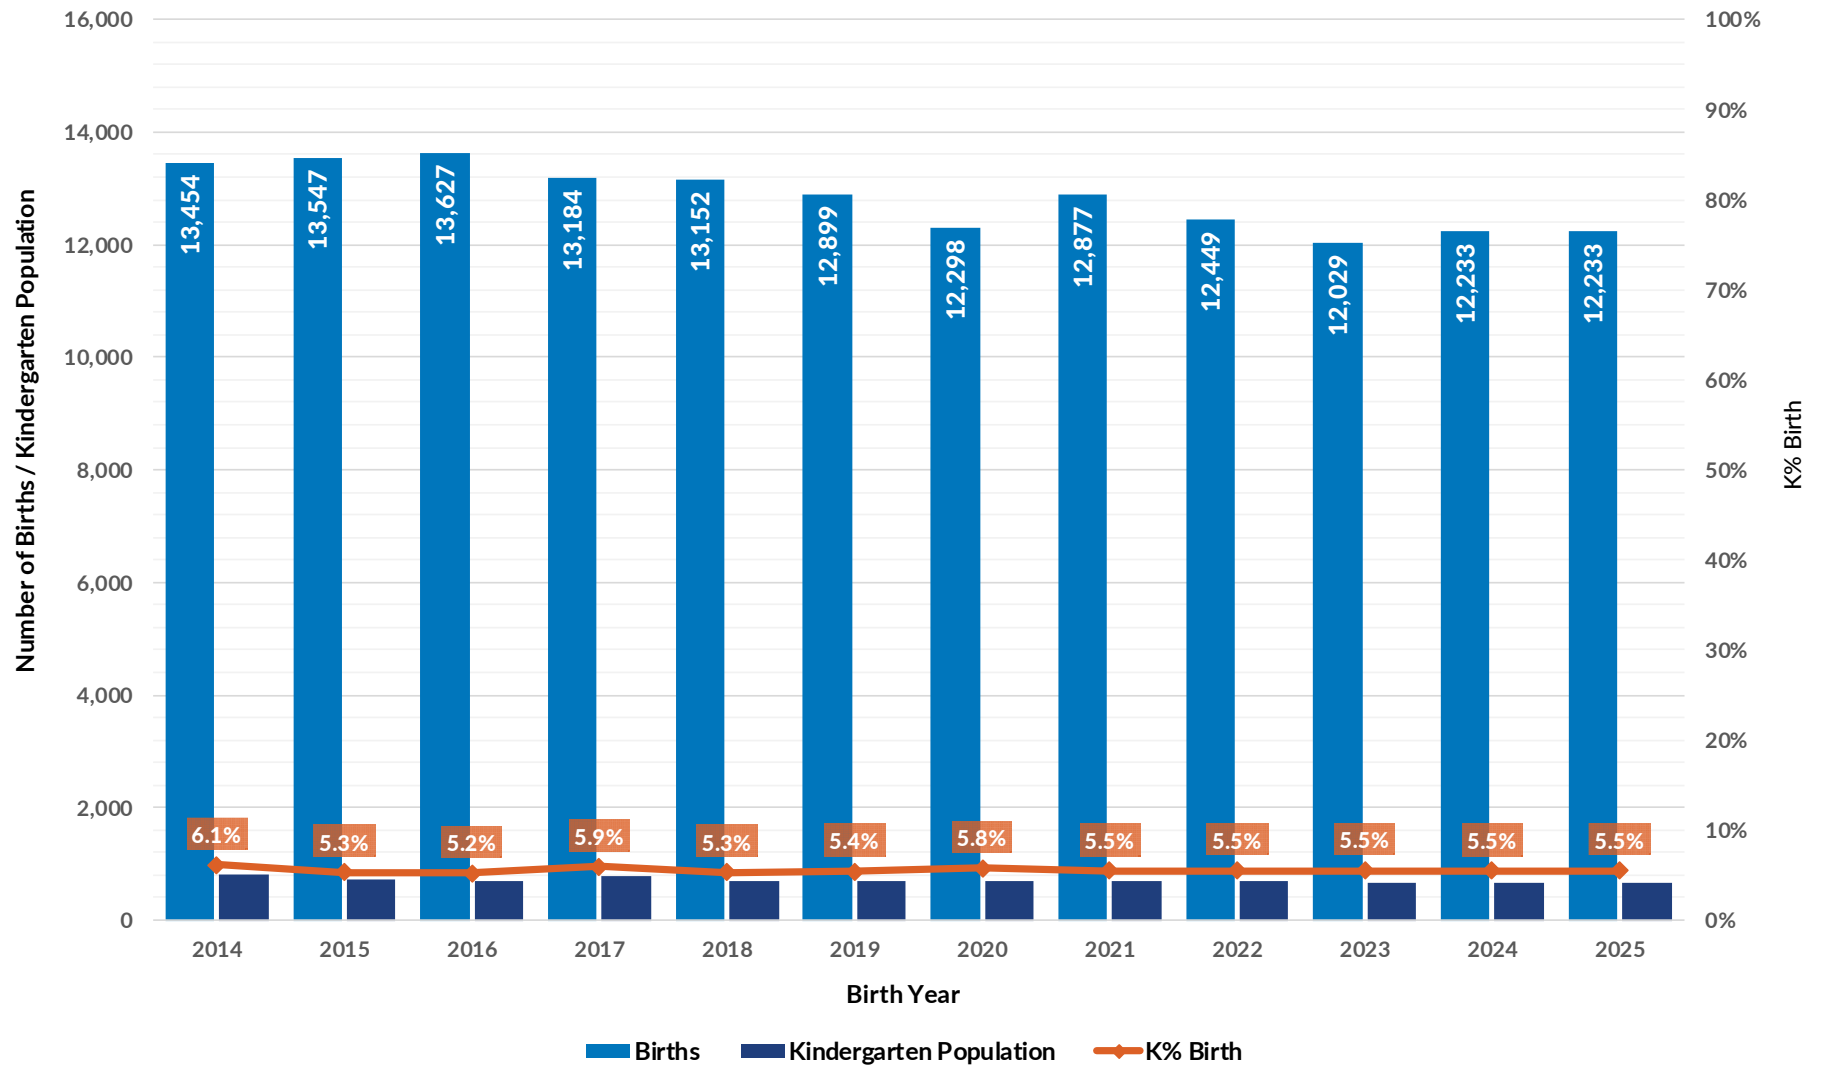

Demographics

Michigan Births

Please note that the number of births for 2024 are provisional.

Oakland County Births

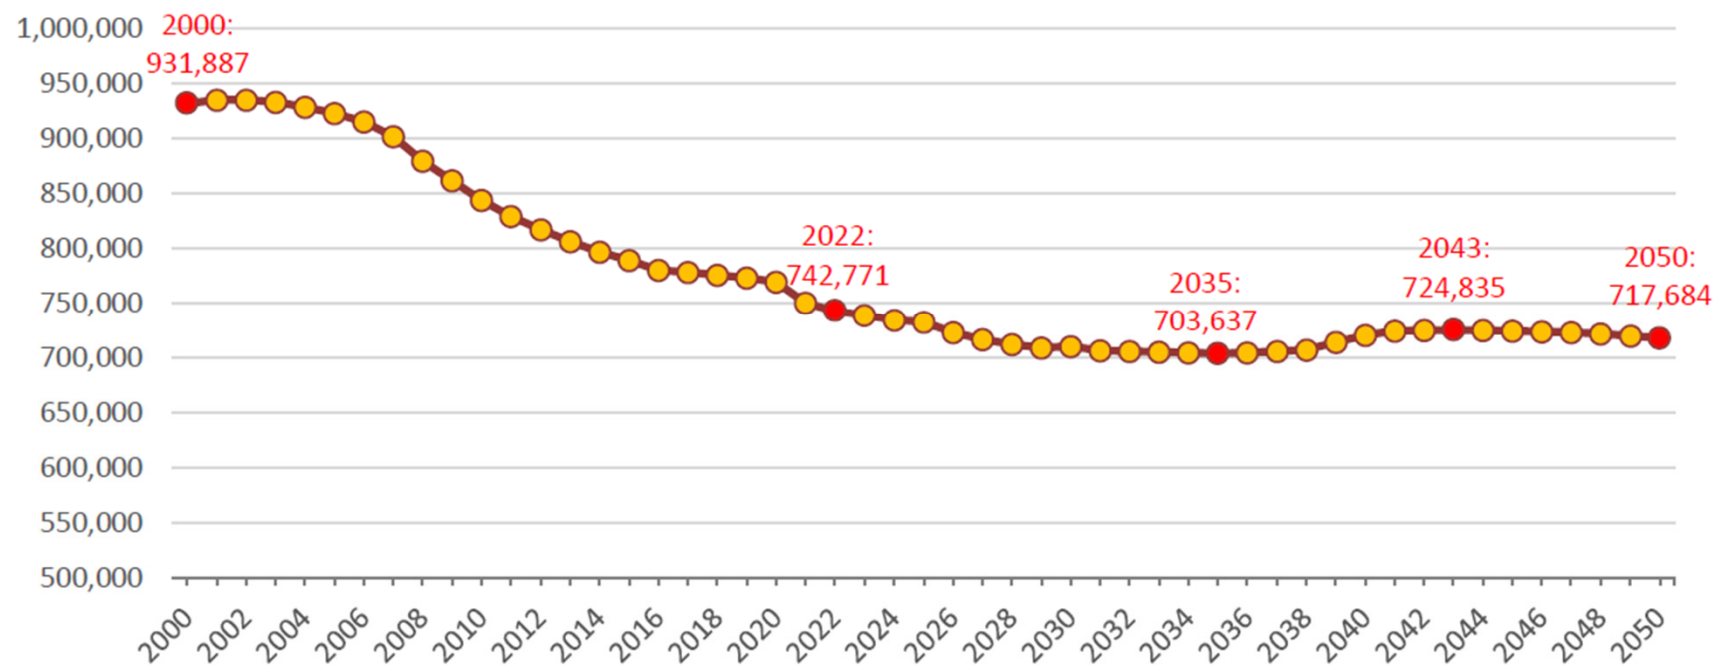

Please note that the number of births for 2024 are provisional and 2025 births have been projected.

Start with the students...

Figure 1

Southeast Michigan's school-age population (ages 5-17), 2000-2050

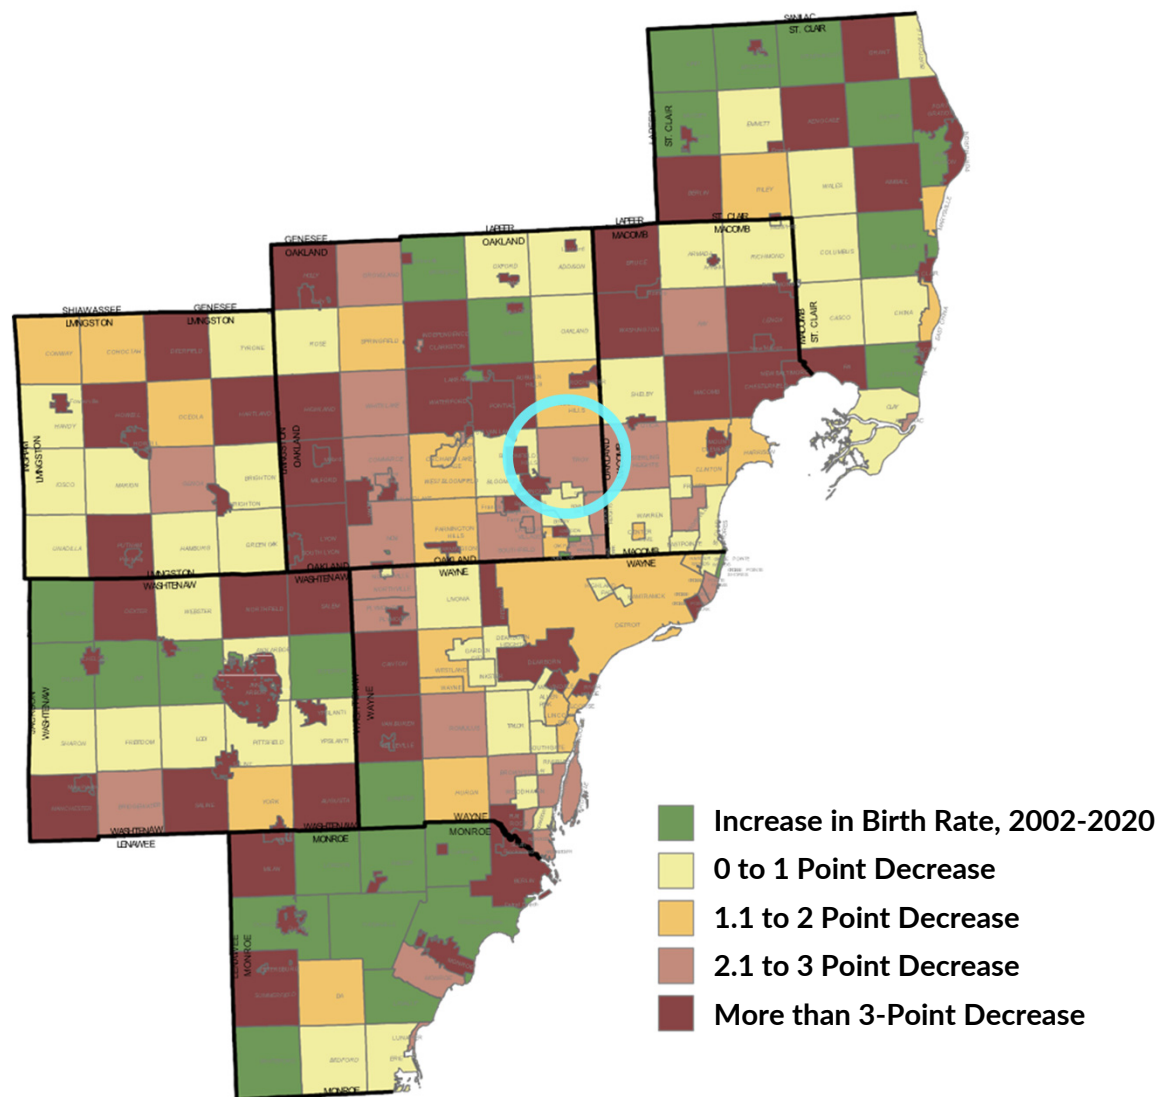

Overview of Current & Projected Demographics

Start with the students...

While the region is witnessing the trends of an aging population and reduced birth rates, the patterns differ among individual communities and school districts.

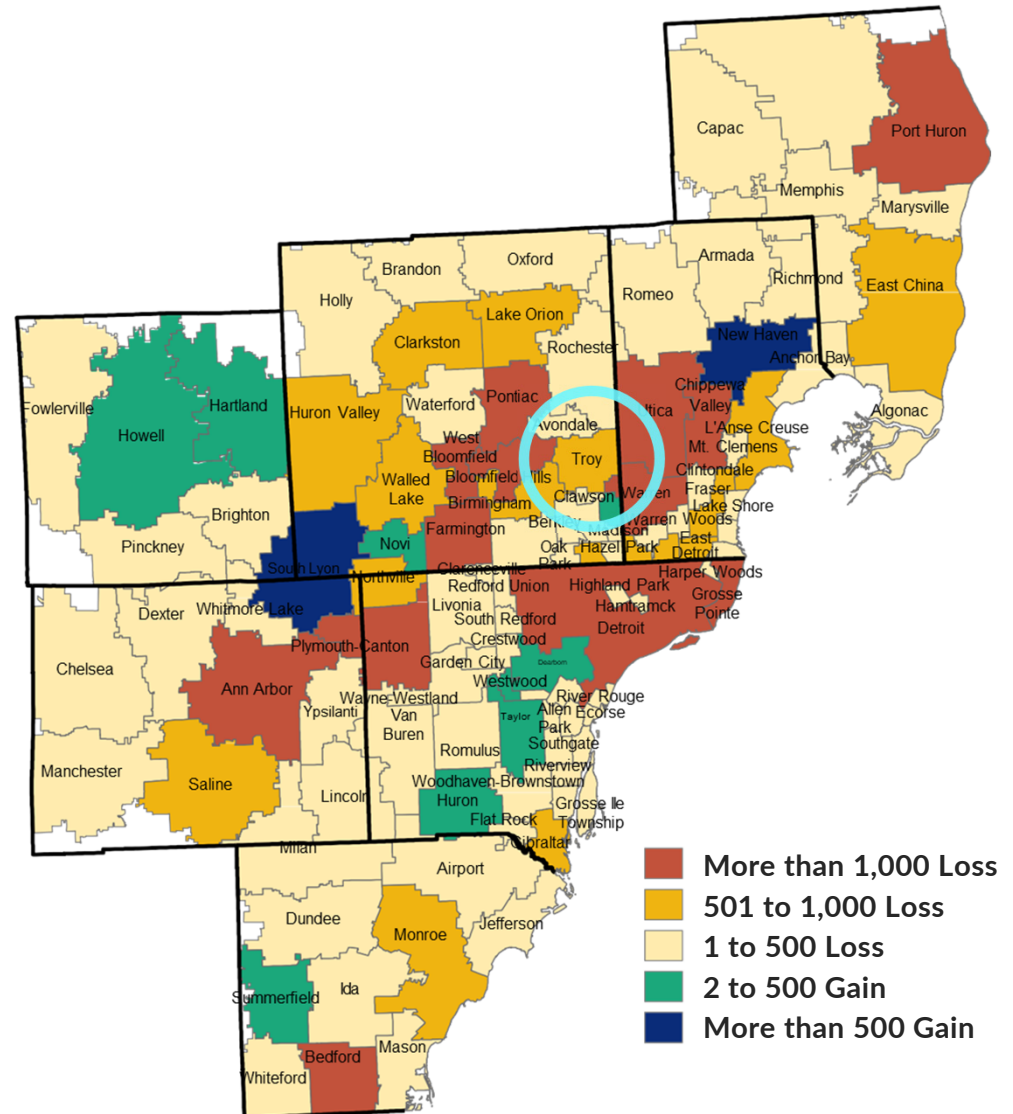

Nearly three quarters of communities (171 out of 233) in the region saw a decrease in birth rate between 2002 and 2020.

In-depth analysis of forecasted changes in the region's school-age population (children aged 5 to 17)

The analysis illustrates the following trends for Southeast Michigan:

- The continued aging of the region
- Fewer births
- Migration as a factor in population change
- Local trends impacting school districts

Population Trends

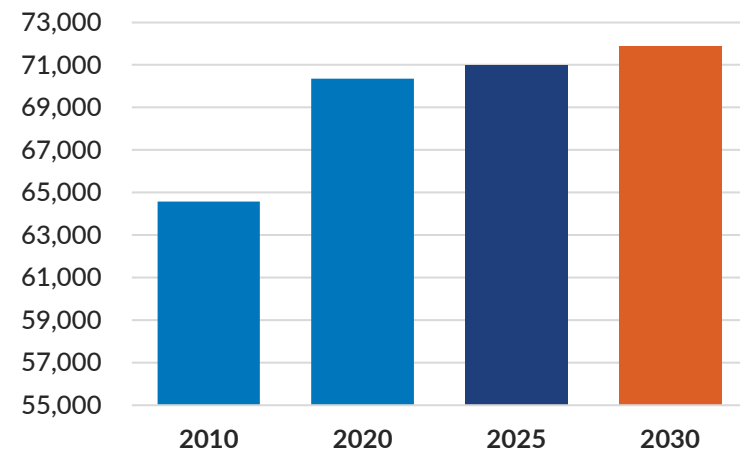

Population by Age

The graph on the right shows the total population in the Troy School District over time – there are more people living in the district in 2025 than were in 2020. The district is projected to grow its population slightly through 2030.

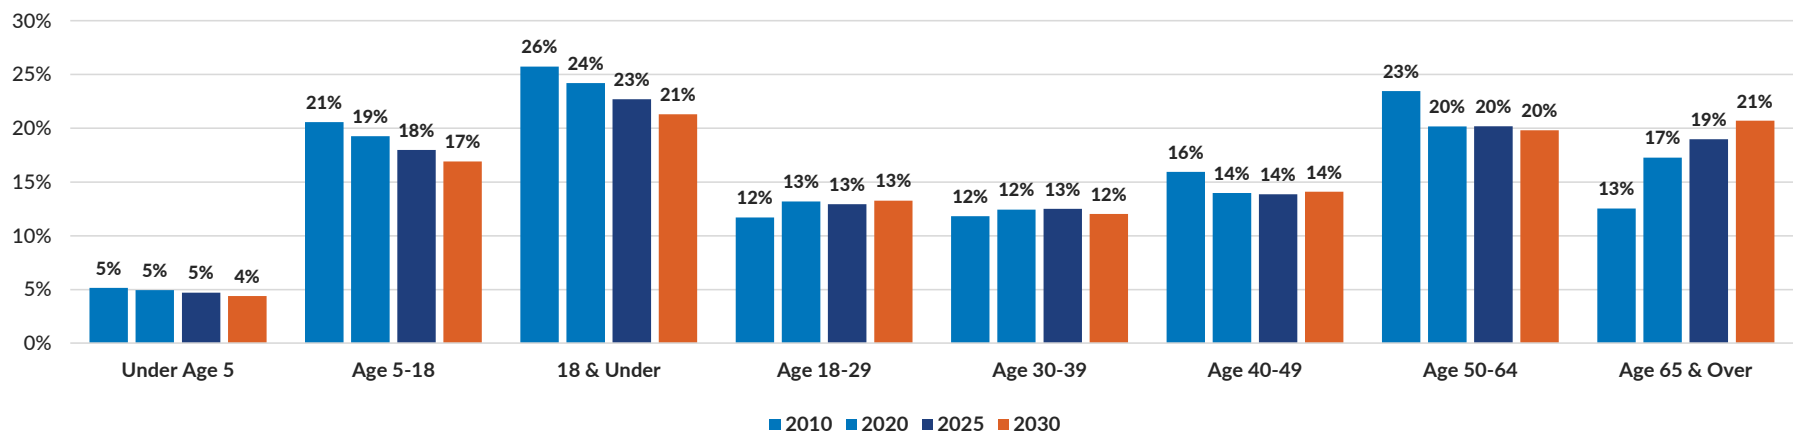

The graph below shows how the distribution by age has changed over time – the population under the age of 18 represents a smaller share of the total population in 2025 compared to 2010 while the share of the population over the age of 65 has increased significantly over the same time. These trends are projected to continue through 2030.

The population in the district is **growing** and **aging**.

Troy School District -
Total Population

Troy School District - Population by Age

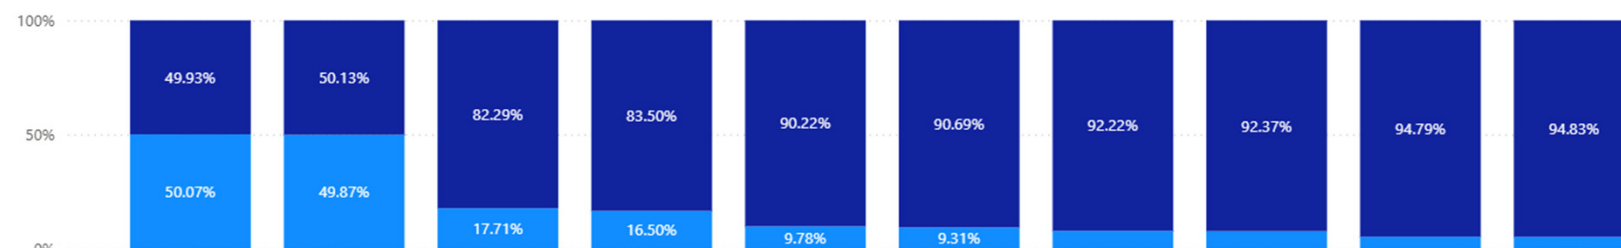

School Enrollment Trends

Public vs. Private Enrollment by Grade

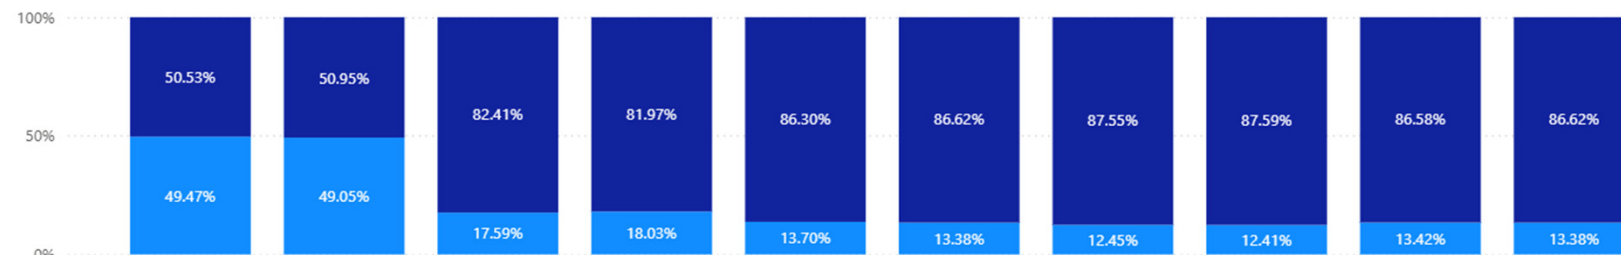

The graphs below show the trends in enrollment in public vs. private schools for school-aged children within the district, Oakland County, and the State. Within the district, public schools have a lower share of students than private when compared to the county and state for preschool but a higher share for every other cohort. Public school enrollment share has increased slightly for each cohort for the district from 2020 to 2025.

Troy School District

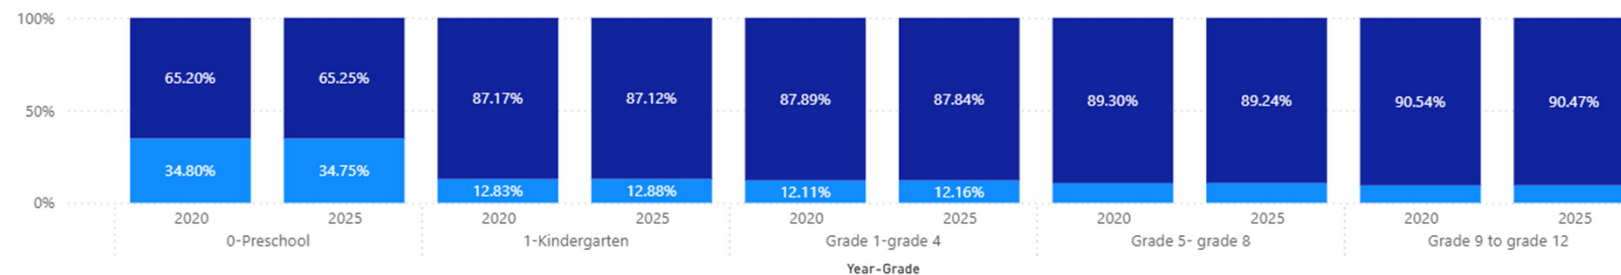

● Private School ● Public School

Oakland

Michigan

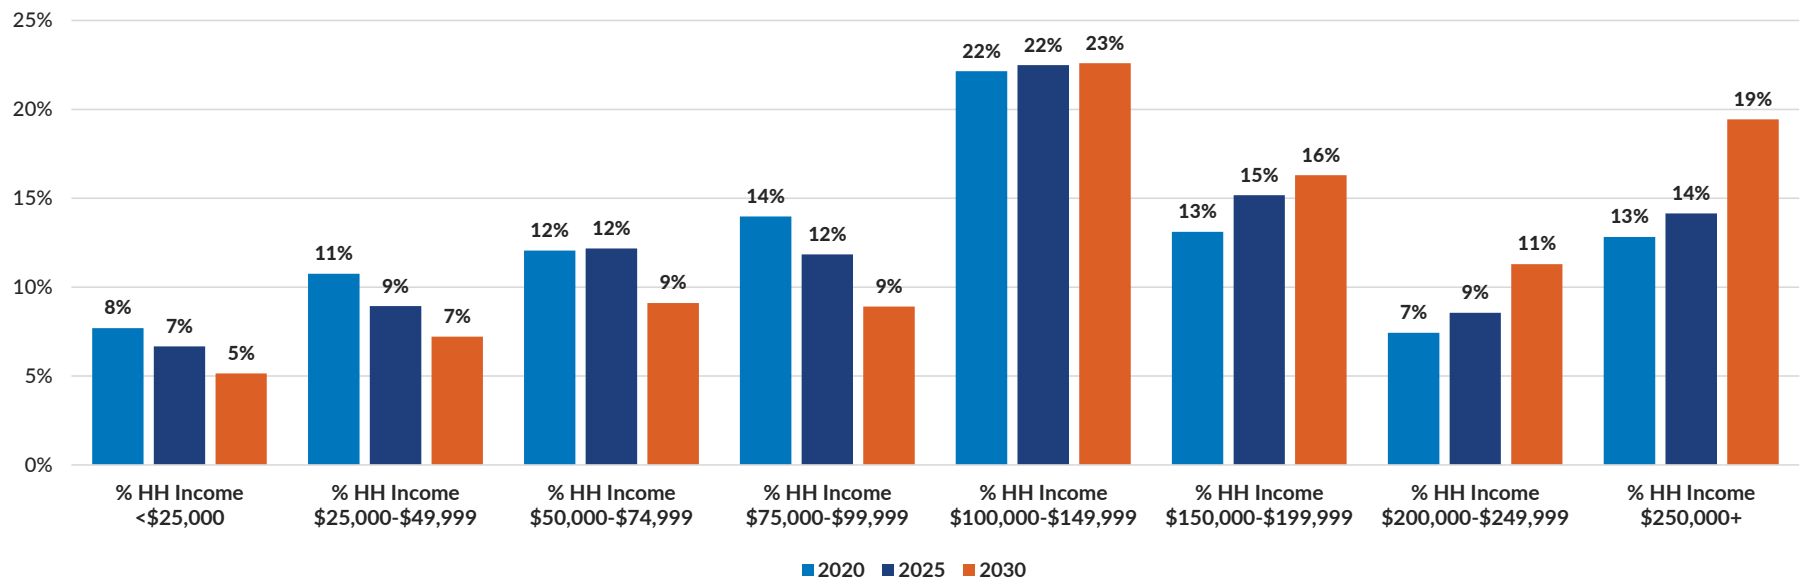

Household Income

Households by Income

The graph below shows households by income in the district for 2020, 2025, and 2030.

The distribution by income has changed over time within the district – the share of households making less than \$100K has decreased while the share of households with incomes greater than \$100K has increased indicating households in the district have experienced increases in their income. **This trend is projected to continue into 2030, particularly for the highest household income bracket of \$250K+.**

Troy School District - Households by Income

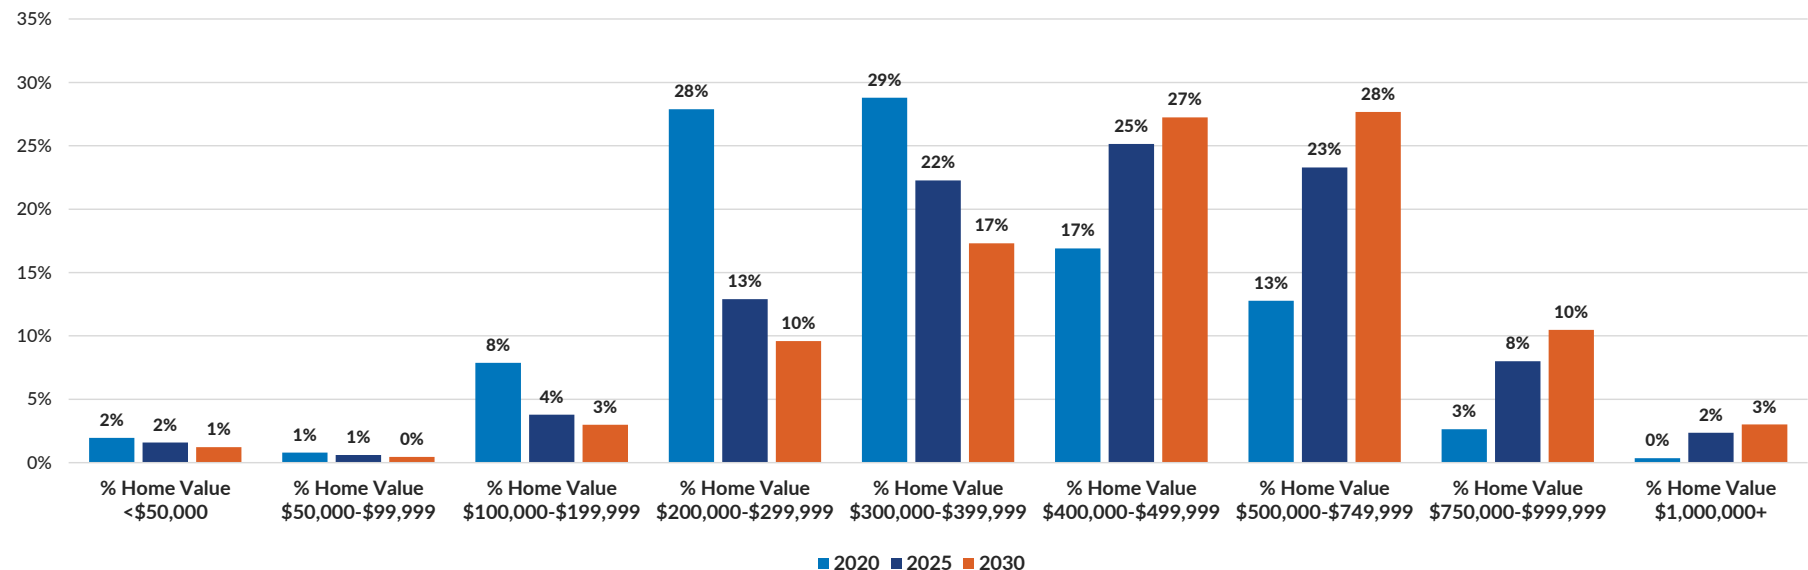

Home Values

Owner Occupied Housing Units by Value

The graph below shows owner occupied housing units by value in the district for 2020, 2025, and 2030.

The distribution by home value has changed significantly over the last 5 years within the district – the share of homes worth \$100K-\$400K has decreased significantly while the share of homes with a value greater than \$400K has increased significantly, another indication that the homeowners in the district are seeing their homes appreciate in value. This trend is projected to continue through 2030.

Troy School District - Home Values

Foreign Born Population Trends

Top Countries Foreign Born Population Immigrating From by Percent

The tables below summarize foreign born population data from the Census specific to the Troy School District for 2015-2024. This chart shows the countries that the foreign-born population originating from has grown the most within the district in terms of percentage (comparing the average population 2015-2020 to the average population from 2020-2024 by country).

Troy School District - Foreign Born Population Trend - Top Countries by Percent Growth (2015-2025)											5-Year Change %	10-Year Change (#)
Country	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024		
Cameroon	0	0	0	11	9	113	105	105	99	99	2505%	99
Croatia	9	10	0	0	16	59	65	66	70	66	831%	57

Honduras	-	-	83	151	199	186	213	187	116	74	79%	74
United Arab Emirates	-	-	-	-	-	-	-	59	49	72	0%	72
Bulgaria	46	44	55	26	31	18	15	7	203	116	78%	70
Turkey	14	13	51	81	69	118	130	101	85	82	126%	68
Iran	47	90	81	63	54	66	47	40	96	109	7%	62
Croatia	9	10	-	-	16	59	65	66	70	66	831%	57
Bosnia	36	33	39	-	-	-	-	34	71	89	80%	53

India has seen by far the largest growth in foreign born population living within the Troy School District and Bosnia, once again, saw the 19th most growth in total foreign-born population from 2015 to 2024.

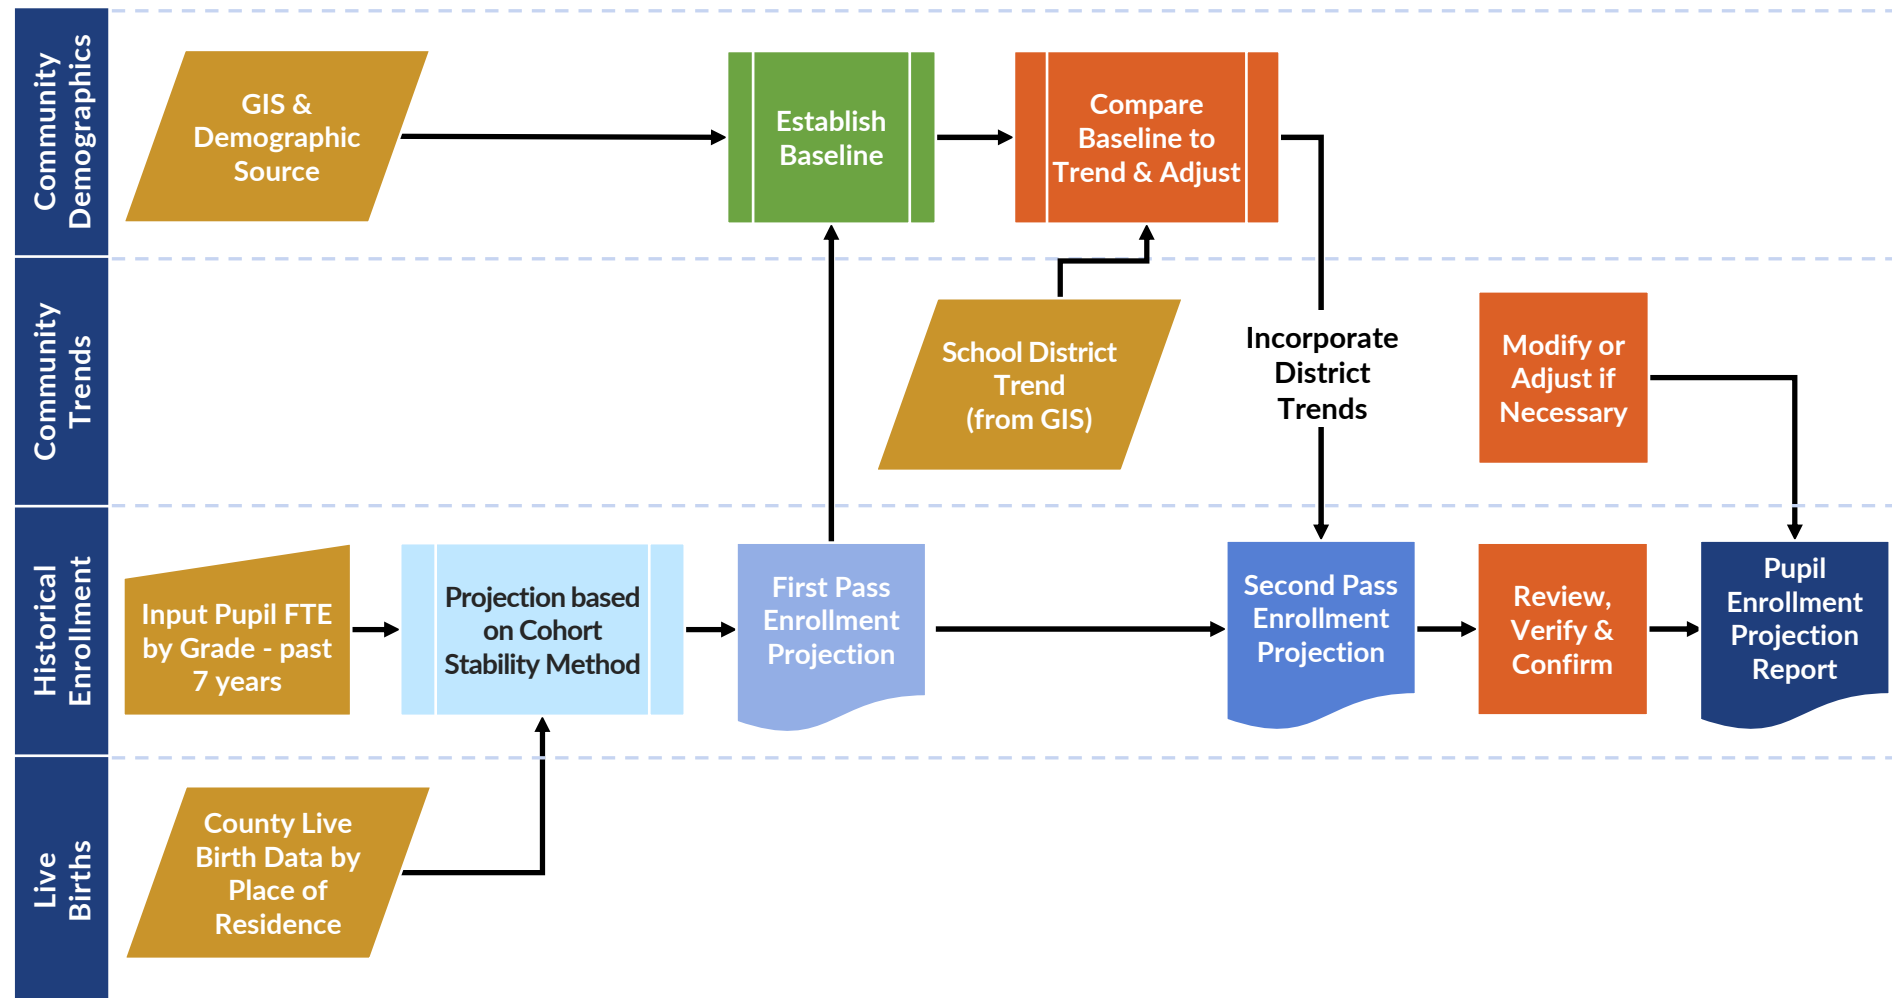

SECTION 2

Pupil Enrollment Projections

Pupil Enrollment Projections

Methodology

Projection Methodology

Method 1

Method 1 is the most conservative approach for enrollment projections; it is based on 6 years of historical data. Method 1 calculates the average stability percentages from the previous 6 years by grade and uses that value as the assumed stability percentage for the respective grade's projections.

Method 2

Method 2 is an approach that utilizes the enrollment data by grade of the previous 2 years (instead of 6, like is the case with Method 1) to determine an assumed stability percentage to be used in calculating the projections by grade. The advantage to this method is to be able to focus on a smaller subset of data to exclude any outlier years that can arise from internal or external changes or events impacting enrollment (for example COVID-19, school of choice changes, new ways of counting students, etc.).

SECTION 2

Districtwide

Pupil Enrollment Projections - Districtwide

Districtwide Projection Notes:

- Both resident only and all pupil enrollment are projected to decline over the next 5 years for the district
- The resident only enrollment is projected to decline at a slower pace than the all-pupil enrollment, this is due to:
 - The current resident only Kindergarten enrollment is larger relative to the resident only grade 12 class when compared to the all-pupil kindergarten enrollment - resident only K enrollment is 22.5% smaller than the outgoing grade 12 class compared to the all-pupil K enrollment which is 27% smaller than the all-pupil grade 12 enrollment.
 - The resident only enrollment (K-12) over the last 7 years has declined by 6.2% whereas the all-pupil enrollment has declined by 8.8% over the same period.

Districtwide - Projections: All Pupils

Enrollment Projection - Cohort Stability Method*
